

Pure Leadership Power

Description

Pure Leadership Power is a turbo charged leadership performance workshop designed to help leaders achieve breakthrough performance. Leadership teams unite around a powerful approach that results in engaged, self-directed people...through experiential learning with a horse. You wonder why horses...

Since horses have a survival instinct to seek leadership, they are the perfect medium to learn and experience leadership and horses don't care what your title may be, they always give honest feedback. When you lead right they will follow. When you don't use good leadership, they won't follow. It is as simple as that.
